**POWER-FLO TECHNOLOGIES ACQUIRES TWINCO SUPPLY
POWER-FLO TECHNOLOGIES EXPANDS MECHANICAL CONTRACTOR
DISTRIBUTION TERRITORY ACROSS NEW YORK CITY AND LONG ISLAND**

**New Hyde Park, New York
January 22, 2019**

Twinco Acquisition LLC d/b/a Twinco Supply (“Twinco”), a subsidiary of Power-Flo Technologies has purchased the assets of Twinco Supply Corp. and will expand its operations to three new locations in Huntington Station, Long Island City, and Manhattan. The acquisition expands PFT’s market, enhances its product lines, and provides it with the ability to offer additional products and solutions serving HVAC mechanical contractors.

Jerry DiCunzolo, Owner and President of Power-Flo Technologies stated that the company “is unique in its multi-faceted approach of providing services, supplies, and solutions to our customers’ projects from conception to completion, by offering in-house engineering, supplies, and support solutions. Combining the capabilities of Twinco with PFT expands our ability to provide our broader customer base with superior service and products.”

Steve Bergman, industry leader and co-founder of Twinco, looks to the values established by Mr. DiCunzolo and his family of companies to strengthen the Twinco organization. “I’ve known Jerry for over 30 years on a personal and business friendship. His values coincide with mine, I look forward to a long relationship with him and his family of companies, to maintain our customer and vendor’s needs.”

Kenneth Freilich and Glenn Gorelik will continue to manage the Huntington Station branch. Kenneth Freilich stated “I have been a personal friend of Jerry’s for over 25 years. I always have had the utmost respect for him and his accomplishments. The entire Twinco team as well as our vendors are excited to be working with him and the Power-Flo Technologies group of companies in order to take Twinco to the next level of success. We thank our loyal clientele and look forward to expanding our customer focused footprint in the tri-state region.” Glenn Gorelik stated “I’m excited to be joining the Power-Flo family of companies. Twinco Supply will be a great addition to their portfolio of products and solutions that can benefit all aspects of the business. I am looking forward to working with our new team.”

About Twinco

Twinco has designed and supplied temperature control systems and LG variable refrigerant flow systems on thousands of projects for major HVAC mechanical contractors. Those projects include schools, financial institutions, office buildings, residences, government facilities, theaters, retail stores, factories, and hospitals. With three fully stocked locations, over 30 employees, on-site engineering support and same day delivery, Twinco is the leading solutions provider for HVAC mechanical contractors throughout New York City and Long Island.

About Power-Flo Technologies

Power-Flo Technologies is a unique family of companies consisting of distributors, fabricators, manufacturers, and motor and pump repair firms serving the Northeast from New Jersey to Maine. As a Master Distributor and Manufacturers Representative with real system solutions, Power-Flo Technologies offers extremely diverse products and service offerings, expert engineering support, 12 state-of-the-art facilities and over 300 employees. It is this unique diversity of product, capability, and service that enables PFT to bridge the very particular needs of the electrical, institutional, MRO & OEM industrial, as well as the plumbing and mechanical trades.
